

IN THE SPECIFICATION:

Please amend paragraph [0008] as follows:

[0008] Other cup and container configurations have provided a double wall for insulation or stability for use with a cup or container. U.S. Patent No. ~~4,865,199~~ 4,548,348 to Clements discloses an expanded base for preventing the spilling of a cup, as does U.S. Patent No. 4,865,199 to Zimmer and U.S. Patent No. 5,143,247 to Gavle. U.S. Patent No. 6,562,270 to Gannon et al. discloses a combination disposable cup insulator/stabilizer. Also, U.S. Patent Nos. 3,372,830 to Edwards, 3,612,346 to Schneider, 4,548,348 to Clements, 4,867,313 to Padovani all disclose double-walled containers and cups. In addition, U.S. Patent No. 3,337,109 to Shumrak discloses a sleeve disposed about at least a portion of a cup for insulating and supporting thereof.
